

Intermediate Environmental Scientist / Engineer / Geoscientist Exciting and Unique Opportunity

Are you a strong technical writer who excels in a fast-paced, collaborative work environment? Do you enjoy combining fieldwork, data analysis, and report writing to solve real-world environmental challenges? If so, we want to hear from you!

We continue to expand our environmental team to support regulatory approvals and permitting for diverse projects across New Brunswick, Atlantic Canada, and beyond. We are seeking motivated candidates with a background in environmental science, engineering, geoscience, or a related field. We are looking for those who enjoy producing high-quality technical reports with a keen eye for clear and engaging graphics.

You will join an established, collaborative, professional team that values quality, client service, meeting deadlines, and work-life balance. Experience is an asset but not essential as we are committed to training and developing the right candidate.

What You'll Do

- Conduct fieldwork including groundwater, soil, and soil vapour sampling
- Install and monitor groundwater observation wells and complete aquifer testing
- Collect, manage, and analyze detailed environmental data
- Prepare high-quality technical reports and graphics
- Complete Phase I Environmental Site Assessments
- Support comprehensive environmental investigations and remediation projects

What You Bring

- Diploma or degree in Environmental Science, Engineering, Geoscience, or related field
- Strong technical writing and communication skills
- Ability to work independently and in a team environment
- Valid Class 5 driver's license

Bonus Points For

- 3 to 5 years of experience
- Environmental sampling or monitoring experience
- Familiarity with the New Brunswick Contaminated Sites Regulation process
- Watercourse and wetland delineation, hydrogeological testing, or GIS skills

Why Join Us?

- Competitive compensation and benefits
- Group RRSP and health plan
- Flexible work environment
- Strong focus on training and career growth
- Supportive, high-performing team culture

Apply in confidence
